Dear Colleagues,

It is my great pleasure to welcome all of you in Milano for the 1st edition of the International Meeting of the Eastern and Western Association on Liver Tumors. An Association and a Meeting which follow the more than 15 years tradition of the HCC Eastern & Western Experiences Meetings which started in Paris in 1998 and concluded in Tokyo in 2013. They were biennial appointments which trapped the International Scientific Community somewhere in the world for 2-3 days debating on HCC and the therapeutical solution for its control: Paris, Tokyo, Lodi (Italy), Hong Kong, Houston, Seoul, Paris and Tokyo again, where the places which hosted this successful initiative. Almost each of those events resulted in prestigious monograph, which summarized the highlights of the respective meetings. Then Hepatogastroenterology twice, Liver Transplantation, Annals of Surgical Oncology, Journal of HBP Sciences, and Liver Cancer hosted the highlights of the meetings in Paris, Tokyo, Lodi, Houston, Seoul and Tokyo, respectively. This success, the growing therapeutical offer of medical oncology, interventional radiology, radiotherapy ecc... other than that of both resective and transplant surgery, for HCC but also for other liver tumors have induced the founders of the HCC Eastern & Western meeting to shift to Meetings dealing with the whole spectrum of liver tumors. In that, of course, the original aims of representing a moment of debate on practical issues comparing different perspective in looking at the same problem from the Eastern rather than the Western side of the world will remain solid bases. The recently indexed journal Liver Cancer will be officially our scientific output maintaining the tradition and effort of having something which will traduce words and thinking occurred in prestigious and dense meetings in written and permanent documents available for the entire scientific community worldwide. A new challenge, which I have the honor together with my team, to inaugurate herein at the Humanitas Research Hospital and Humanitas University. Passion, quality, and endurance of the friends who start with me this renewed adventure and of all of you, will certainly provide for now and the future valuable contribution in finding new solution for relieving and curing all those patients carrier of a liver tumor in any corner of the world.

My warmest welcome to Milano and my best wishes for a profitable, and enjoyable stay with us.

Guido Torzilli, MD, PhD, FACS
8:15 am  **Welcome Addresses**  

**IMAGING FOR HCC** Chairman: L. Balzarini

8:30 am Advances in imaging modalities for HCC  
O. Matsui

8:45 am The Western point of view  
F. Trevisani

9:00 am The Eastern point of view  
M. Kudo

9:15 am Surgery for HCC in the real world  
G. Torzilli

9:30 am Controversies on the medical treatment  
G.K. Abou-Alfa

9:45 am The role of interventional oncology  
R. Lencioni

10:00 am Discussion

**Breaking news**

10:15 am Is it the time for a second line systemic treatment?  
L. Rimassa

10:30 am Coffee Break

11:00 am **MASTER’S TALK**  
FROM ULTRASOUND TO SURGERY Chairman: G. Torzilli

M. Makuuchi
HCC DAY

THURSDAY JANUARY 22nd, 2015

LIVER TRANSPLANTATION FOR HCC

Chairmen: J. Belghiti, L. De Carlis

11:30 am  Liver transplantation for HCC: the Western perspective    A. Pinna
11:45 am  Liver transplantation for HCC: the Eastern perspective    N. Kokudo
12:00 pm  Liver transplantation for HCC: benefit as endpoint        U. Cillo
12:15 pm  Discussion

12:30 pm  Luncheon Seminar

Luncheon seminar-1
SIR-Spheres® microspheres (Y-90 resin microspheres) – a new paradigm for inoperable liver tumours    SIRTeX

Luncheon seminar-2
Interventional radiologists and surgeons allied against liver tumors with the aid of ultrasound    ESAOTE

WHICH ABLATION

Chairmen: D. Elias, M. Scorsetti

1:30 pm  Ablation of HCC: the Eastern perspective    S. Shiina
1:45 pm  Ablation of HCC: the Western perspective    L. Solbiati
2:00 pm  Any role for Radiotherapy?                   L. Dawson
2:15 pm  Discussion

SESSION 1 | oral presentations  THURSDAY JANUARY 22nd, 2015 11:30 am - 12:30 pm
Chairmen: H.S. Han, M. Donadon

**Liver resection of metabolic syndrome related HCC: a comparative study with viral and alcoholic HCC**
S. Conci, Italy
A. Ruzzenente | M. De Angelis | S. Conci | F. Bagante | A. Valdegamberi | F. Bertuzzo | G. Mantovani | C. Iacono | A. Guglielmi

**The ITALICA staging system for patients with HCC: a multicenter cohort study**
A. Vitale, Italy

**Hemodynamic differences in the very early phase of hepatocellular carcinoma using contrast-enhanced ultrasonography**
A. Saito, Japan
S. Katagiri | M. Yamamoto | T. Morizane

**Management of hepatocellular carcinoma with tumor thrombi extending to right heart: proposal of two-stage hepatectomy**
C. Wu, China
S.B. Cheng | S.R. Hsieh | J.H. Shen
K. Kubota, Japan
M. Kato | T. Matsumoto

**Portal vein embolization for hepatocellular carcinoma**

**Multicentric vs. metastatic hepatocellular carcinoma: pathological concern or different clinical subtypes?**
M. Cimino, Italy
M. Donadon | L. Di Tommaso | L. Viganò | D. Del Fabbro | F. Procopio | M. Roncalli | G. Torzilli
SESSION 2 | oral presentations

THURSDAY JANUARY 22nd, 2015 1:30 pm - 2:30 pm

Chairmen: H.J. Kim, G. Ercolani

The challenge of inoperable Hepatocellular Carcinoma: results of a single-institutional experience on Stereotactic Body Radiation Therapy

T. Comito, Italy

Outcome of High intensity focused ultrasound ablation vs RFA with bile duct cooling for HCC located near the bile duct in patients with cirrhosis. A case-matched comparative study

T. Cheung, China
C. Mau Lo | T. Yau | S. Tat Fan

Laparoscopic anatomical hepatectomy for hepatocellular carcinoma

T. Ryu, Japan
G. Honda | M. Kurata | S. Kobayashi | K. Sakamoto | M. Honjo

Is anatomical liver resection useful for improving prognosis of patients with hepatocellular carcinoma?

K. Kubota, Japan
T. Matsumoto

Rapid fibrosis and significant histologic recurrence of hepatitis post liver transplant is associated with higher tumor recurrence rates post liver transplant in Hepatocellular carcinomas associated with Hepatitis C virus related liver disease

B. Vasavada, Taiwan
C.L. Chan | K. Julka

Early identification of patients at increased risk for hepatic insufficiency and complications after major hepatectomy.

M. De Bellis, Italy
M. Iaria | G. Pedrazzi | E. Bertocchi | R. Dalla Valle
SESSION 3 | video presentations  THURSDAY JANUARY 22nd, 2015  2:30 pm - 3:30 pm  
Chairmen: R. Santambrogio, D. Del Fabbro

3

Right hepatectomy by anterior approach and hanging maneuver for giant fibrolamellar HCC  A. Belli, Italy
C. Fantini | A. D’Agostino | G. Belli

A strategy to treat huge hepatocellular carcinoma with the inferior vena cava and portal vein invasion in a young hepatitis B virus-infected adult  K.C. Hung, Taiwan

Single Incision Laparoscopic Partial Hepatectomy  F. Cannizzo, USA
J.E. Meyer | J.R. Romanelli | R.B. Arenas

The Lateral approach liver hanging maneuver in laparoscopic anatomical liver resections  J. H. Kim, South Korea
J.H. Kim | J.W. Choi

Robotic atypical liver resection of segments 1 and 4a  S. Amore Bonapasta, Italy
L. Moraldi | F. Perna | I. Bartolini | F. Guerra | S. Aldrovandi | C. Linari
SESSION 4 | mini oral presentations

THURSDAY JANUARY 22nd, 2015 5:00 pm - 6:00 pm

Chairmen: D. Ribero, D. Fuks

Management of recurrent HCC after curative resection: a retrospective study of 269 patients
S. Conci, Italy
A. Ruzzenente | A. Valdegamberi | M. Fontana | F. Bertuzzo | M. Piccino | G. Mantovani | C. Iacono | A. Guglielmi

What has changed in clinical features at diagnosis, treatment and survival of hepatocellular carcinoma in the last years: a population-based study in a Southern-Europe country
S. Molfino, Italy
F. Donato | E. Raffetti | G.L. Baiocchi | R.M. Limina | G. Caccamo | F. Gheza | N. Portolani

Microinvasive intraoperative ultrasound pattern in predicting outcomes for single small HCC
R. Santambrogio, Italy
M. Barabino | M. Costa | S. Cameliol | M. Virdis | E. Opocher

Combined Radiofrequency Ablation and Sorafenib in the treatment of advanced Hepatocellular Carcinoma
M. Kuang, China
C. Jiang | B. Liu | X. Xie | M. Lin | Y. Wang | M. Lu

Local Recurrence after Radiofrequency Ablation of Hepatocellular Carcinoma: Treatment choice and Survival Analysis
M. Kuang, China
B. Liu | M. Lin | W. Hu | S. Shen | C. Jiang | D. Li

Critical aspects in the management of HCC: indications to hepatic resection according to BCLC system
F. Romano, Italy
S. Nespoli | M. Garancini | F. Uggeri | L. Nespoli | L. Degrate | L. Gianotti

Is the Barcelona Clinic Liver Cancer classification still useful as indication to surgical resection in patients affected by hepatocellular carcinoma? A retrospective analysis from a Northern-Italy tertiary referral HPB center
N. De Ruvo, Italy
V. Serra | R. Ballarin | N. Cautero | G. Tarantino | F. Di Benedetto

Salvage transplantation for post-resection recurrence of hepatocellular carcinoma associated with hepatitis C virus aetiology: a feasible strategy?
B. Vasavada, Taiwan
C.L. Chan | K. Julka | A. Kormoswoski

Prior Trans-arterial chemoembolization: a protective factor against rapid HCV recurrence after liver transplant in patients with HCV with HCC? A retrospective analysis
B. Vasavada, Taiwan
C.L. Chan | K. Julka

Survival and prognostic factors after hepatectomy for hepatocellular carcinoma: a case-match analysis with classic hepatocellular carcinoma and mass-forming cholangiocarcinoma
A. Gatti, Italy
G. Costa | M. Donadon | L. Di Tommaso | L. Viganò | M. Cimino | D. Del Fabbro | F. Procopio | M. Roncalli | G. Torzilli
Now available with the new robotic transducer L43K, supporting safe & precise surgeries.

COME AND EXPERIENCE IT FOR YOURSELF!

www.hitachi-medical-systems.eu
METS DAY FRIDAY JANUARY 23rd, 2015

IMAGING FOR CLM
Chairman: O. Matsui
8:30 am Preoperative staging: the role of CT, MRI and PET-CT V. Vilgrain

THE STATE OF THE ART
Chairmen: A. Falcone, W. Jarnagin
8:45 am Should every resectable CLM be resected? Present indications and limits N. Kokudo
9:00 am Neoadjuvant chemotherapy in resectable patients:
   The West experience
   The East experience G. Folprecht M. Unno
9:20 am Multidisciplinarity in surgical oncology: the ESSO perspective G. Poston
9:35 am Discussion

9:45 am MASTER’S TALK
Chairman: M. Makuuchi
FROM PIGGYBACK TO HANGING: THE FRENCH REVOLUTION J. Belghiti
10:15 am Coffee Break

CHEMOTHERAPY AND SURGERY
Chairmen: G. Folprecht, R. Adam
10:30 am Conversion chemotherapy: which regimen to achieve resectability? A. Falcone
10:45 am Surgery in initially unresectable patients F. Giuliante
11:00 am Chemotherapy-related liver injury: prediction and impact O. Soubrane
11:15 am Evaluation and prognosis of patients undergoing resection: the emerging role of RAS mutations JN. Vauthey
11:30 am Disappearing colorectal metastases after chemotherapy  
11:45 am The role of intra-arterial chemotherapy  
12:00 pm Discussion

**BEST ORAL PRESENTATIONS**

**Chairmen: E. Rosso, R. Santambrogio**

12:15 pm *Minor-but-Complex Hepatic Resection: a new approach for surgical management of hepatic outflow at the caval confluence to spare liver parenchyma in the treatment of colorectal metastasis*

L. Urbani, Italy

**Outcome of ALPPS procedure by the anterior approach**

A. Chan, China

R. Poon | J. Dai | C. Tan To | K. Chok | L. Chung Mau

**The survival benefit of lymphadenectomy in patients with intrahepatic cholangiocarcinoma undergoing hepatic resection**

A. Vitale, Italy

G. Zanus | E. Gringeri | U. Cillo

**Prognostic relevance of lymph node status in resected patients with hilar cholangiocarcinoma: results of an italian multicenter analysis**

F. Ardito, Italy

A. Ferrero | L. Aldrighetti | F. Calise | S. M. Giulini | A. Guglielmi | E. Jovine | A. Pinna | G. Nuzzo | F. Giuliani
1:00 pm LUNCHEON SEMINAR
Luncheon seminar-3:
New ultrasound technologies for hepatic surgeons
Hitachi-Aloka

PUSHING THE LIMITS

Chairmen: N. Kokudo, A. Pinna
R. Adam
G. Torzilli
E. De Santibanes
L. Rubbia-Brandt
L. Viganò
P. Majno

2:00 pm Two-stage hepatectomy
2:15 pm One-stage hepatectomy
2:30 pm ALPPS
2:45 pm Surgical margin R0 vs R1:
The pathologist
The surgeon
3:05 pm Reverse strategy for synchronous metastases
3:20 pm Discussion

Breaking news

3:35 pm Italian registry of ALPPS
E. Jovine
3:45 pm Results of laparoscopic two stage hepatectomies
D. Fuks
3:55 pm Discussion

4:00 pm Coffee Break
NEW PERSPECTIVES
Chairmen: P. Majno, A. Chiti

4:15 pm Peritoneal carcinomatosis: still a contraindication?  D. Elias
4:30 pm Interstitial treatments: what's new about RF and MW ablation?  L. Solbiati
4:45 pm Radioembolization  F. Orsi
5:00 pm Liver transplantation for CLM: myth or reality?  J. Lerut
5:15 pm Radiotherapy  M. Scorsetti
5:30 pm Discussion

Master Video Session:  
SKIN AND ORGAN TARGETED MINI-INVASIVITY  Chairmen: F. Calise, D. Cherqui

5:40 pm Laparoscopic liver resection  H.S. Han
5:50 pm Laparoscopic liver resection  G. Belli
6:00 pm Laparoscopic liver resection  H. Kaneko
6:10 pm Laparoscopic liver resection  H.J. Kim
6:20 pm Ultrasound-guided conservative surgery  F. Procopio
6:30 pm Discussion
6:40 pm End of the day
SESSION 5 | oral presentations
Chairmen: H. Kaneko, L. Aldrighetti

FRIDAY JANUARY 23rd, 2015 10:30 am - 11:30 am

1. Impact of advanced age on the outcomes in patients undergoing liver resection for colorectal metastases: our experience
   - S. Vaccari, Italy

2. Laparoscopic management of colorectal cancer with synchronous liver metastases: a single center experience
   - S. Berti, Italy
   - E. Francone | C. Sagnelli | A. Ferrarese | C. Feleppa | E. Falco

3. Single-center experience in the surgical treatment of fastric, gastro-esophageal junction and esophageal cancer liver metastases
   - H. Alexandrino, Portugal
   - R. Martins | L. Ferreira | M. Serôdio | M. Martins | J. Guilherme Tralhão | F. Castro e Sousa

4. Liver resection for colorectal metastases in older adults: a paired-matched analysis
   - N. De Ruvo, Italy
   - R. Ballarin | N. Cautero | V. Serra | G. Tarantino | F. Di Benedetto

5. Prospective diagnostic test accuracy comparison of Computed Tomography during Arterial Portography (CTAP) and Primovist MRI in the pre-operative assessment of colorectal cancer liver metastases
   - J. S. Bagia, Australia
   - A. Teixeira-Pinto | A. Chai | R. Chou | C. Chu | J. Rouse | E. Sinclair | L. Vonthethoff
Simultaneous laparoscopic right hepatectomy combined with extended laparoscopic right colectomy for hepatic flexure cancer plus synchronous liver metastases.

N. Belev, Bulgaria
N. Shopov | P. Rusev | M. Slavchev | K. Staneva | G. Dgarov

Laparoscopic sigmoid resection combined with left liver lobectomy extended to segment IVa for sigmoid cancer and synchronous liver metastasis

N. Belev, Bulgaria
N. Shopov, P. Rusev, P. Krastev, S. Popov

Use of real-time virtual sonography in liver surgery

S. Satou, Japan
Y. Beck | N. Kokudo

Evolution of laparoscopic right hepatectomy

F. Ratti, Italy
L. Aldrighetti

Laparoscopic approach for left lateral sectionectomy is feasible, safe and efficient even as a “rescue procedure”

F. Ratti, Italy
L. Aldrighetti
Therapeutic strategy for patients with disappearing colorectal liver metastases: experience of an Italian high volume center

A. Coppola, Italy
E. Panettieri | F. Ardito | C. Mele | A. M. De Rose | N. Silvestrini | M. Vellone | F. Giuliante

Neoadjuvant folfiri+bevacizumab in patients with resectable liver metastases from colo-rectal cancer: results from a phase 2 trial and comparative analysis of early PET/CT scan vs RECIST criteria in predicting outcome

A. Belli, Italy
M. Leongito | R. Palaia | V. Albino | G. Nasti | S. Lastoria | G. Romano | F. Izzo

Stereotactic Body Radiation Therapy for inoperable liver metastases from colorectal cancer: results of a phase II trial

C. Franzese, Italy

Survival impact of R1 resection for colorectal liver metastasis

K. Sakamoto, Japan
Goro Honda, Masanao Kurata, Shin Kobayashi, Masahiko Honjo, Tomoki Ryu

Synchronous surgery for colorectal cancer and liver metastases: laparoscopic colorectal resection improves short term outcome. A comparative study

F. Ratti, Italy
M. Catena | S. Di Palo | C. Staudacher | L. Aldrichetti

Strategies to increase resectability of patients with Colorectal Liver Metastases: A multi-center case-match analysis of ALPPS versus conventional Two-Stage Hepatectomy

F. Ratti, Italy
E. Schadde | M. Masetti | M. Massani | M. Zanello | M. Serenari | F. Cipriani, L. Bonariol | N. Bassi | L. Aldrichetti | E. Jovine
SESSION 8 | mini oral presentations
FRIDAY JANUARY 23rd, 2015 4:00 pm - 5:00 pm
Chairmen: E. Rosso, L. Viganò

Repeated hepatectomy for liver tumours: is it safe?
S. Vaccari, Italy
E. De Raffele | M. Mirarchi | B. Pirrera | F. Lecce | B. Dalla Via | D. Cuicchi | R. Bellusci | A. Cavallari | B. Cola

Does the aging affect the short-term outcomes of patients undergoing liver resection?
A single tertiary referral centre experience
S. Conci, Italy
G. Mantovani | A. Ruzzenente | A. Ciangherotti | F. Bagante | T. Campagnaro | A. Valdegamberi | C. Iacono | A. Guglielmi

Establishing a hepatobiliary center in the middle of an economic crisis
G. Tsoulfas, Greece
A. Tsoulfas | B. Tsiantzi | A. Vlaxodimos | A. Fandakis | V. Papagiannis | G. Marakis | G. Tsoulfas

Single Port Laparoscopic Liver Resection: a single institution case series with extended follow-up
F. Cannizzo, USA
L. L. Davis | J. R. Romanelli | R. B. Arenas

Consecutive successful ALPPS in 2 years without reoperation and mortality
J. Li, Germany
F. Ewald | E. Achilles | L. Fischer | B. Nashan

Comparative analysis of left versus right sided resection in patients undergoing liver surgery for Klatskin tumor: can lesion side be considered a prognostic factor?
F. Ratti, Italy
F. Cipriani | G. Piozzi | M. Catena | M. Paganelli | L. Aldrighetti

Computer assisted navigation of IRE needles in ablation of a liver tumour
J. Freedman, Sweden
D. Stillström | J. Engstrand | H. Nilsson | M. Peterhans | E. Jonas

Outcome of patients undergoing liver surgery for HCC in the period of ERAS approach and laparoscopy. A comparative study
F. Ratti, Italy
F. Cipriani | R. Ariotti | M. Catena | M. Paganelli | L. Aldrighetti

Diagnosis and management of bile leak after hepatectomy: results of a prospective analysis of 475 hepatectomies
A. Kasangian, Italy
M. Donadon | G. Costa | M. Cimino | L. Viganò | F. Procopio | D. Del Fabbro | A. Gatti | G. Torzilli

Parenchyma-sparing liver surgery for large segment 1 tumors. Ultrasound-guided lateral and superior approaches as safe alternative to major hepatectomy
G. Costa, Italy
L. Viganò | F. Procopio | M. Donadon | M. Cimino | D. Del Fabbro | A. Palmisano | G. Torzilli
CHOLANGIOCARCINOMA
Chairman: P. Invernizzi

8:30 am Epidemiology of cholangiocarcinoma
D. Alvaro

TREATMENT OF CHOLANGIOCARCINOMA
Chairmen: N. Bassi, A. Guglielmi

8:45 am Surgery for gallbladder cancer
G. Ercolani

9:00 am Surgery for perihilar and hilar cholangiocarcinoma
T. Ebata

9:15 am Surgery for intrahepatic cholangiocarcinoma
D. Ribero

9:30 am Chemotherapy for cholangiocarcinoma
J. Valle

9:45 am New histological features in cholangiocarcinoma
L. Di Tommaso

10:00 am Discussion

10:20 am Coffee Break

TREATMENT FOR NET METASTASES
Chairmen: C. Carnaghi, A. Lania

10:40 am Liver resection and transplantation
V. Mazzaferro

10:55 am TAE / TACE / TARE
V. Vilgrain

11:10 am Radioreceptorial imaging and treatment
L. Bodei

11:25 am Medical treatment
K. Oberg

11:40 am Discussion

12:00 pm End of the day
Indocyanine green test does not predict chemotherapy-associated liver injury
N. Russolillo, Italy
S. Langella | S. Perotti | R. Lo Tesoriere | F. Forchino | A. Ferrero

Can hepatic resection provide a long-term cure to patients with Intrahepatic Cholangiocarcinoma?
A. Vitale, Italy

Neoadjuvant Chemotherapy for gallbladder carcinoma. Does it increase resectability?
S. Singh, India
N. Gupta | D. Raj

Klatskin mimicking lesions, the Niguarda experience
F. Ferla, Italy
A. Barcella | S. Di Sandro | A. Lauterio | I. Mangoni | R. De Carlis | A. Giacomoni | L. De Carlis

Learning Curve of Laparoscopic Left Lateral Sectionectomy: a feasible and safe stairway for a gold standard procedure. Results from an international multi-institutional analysis on 245 cases from four single surgeons
F. Ratti, Italy
SESSION 10 | video presentations  
SATURDAY JANUARY 24th, 2015 10:30 am - 11:30 am
Chairmen: G. Honda, G. Belli

Laparoscopic left lateral sectionectomy extended to segment 4b in a 74-year old woman with juvenile liver hemangioma
N. Belev, Bulgaria
M. Slavchev | P. Rusev | B. Atanasov | I. Bodurov

Left hepatectomy extended to paracaval segment plus partial infrahepatic anterior vena cava wall resection and reconstruction of the middle hepatic vein using left portal venous graft with extracorporeal circulation under in situ hypothermia
G. Batignani, Italy
B. Pesi | T. Nelli | F. Giudici | R. Addasi | D. Zambonin | L. Moraldi | S. Scaringi

Middle hepatic vein reconstruction with a renal cyst patch for the radical resection of cholangiocarcinoma involving the caval confluence, using the minor-but-complex approach
L. Urbani, Italy

Laparoscopic posterosuperior hepatic pericystectomy of Giant Cystic Echinococcosis
E. Francone, Italy
C. Feleppa | L. D’Ambra | S. Bruno | E. Falco | S. Berti

Laparoscopic resection of liver metastases from small bowel neuroendocrine tumor in previous open right hepatectomy
C. Feleppa, Italy
M. Imperatore | S. Olcese | C. Eretta | M. Di Martino | E. Francone | S. Berti
Multimodality approach to carcinoma gall bladder: a single center experience.  
S. Singh, India  
N. Gupta | D. Ram

Outcome of pT2 gallbladder cancer according with the type of regional lymphadenectomy  
D.E. Park, South Korea  
G.O. Jung | K.Y. Kim

Open Radiofrequency Ablation of Hepatocellular Carcinoma in the difficult location for percutaneous technique.  
I.Y. Park, South Korea  
H.J. Choi

Autologous stem cell transplantation for the treatment of hepatocellular cancer  
K.H. Ryu, Japan  
H.S. Han

Sorafenib Case Report Keri  
L. Pinnock, NY, USA  
V. Dubrovskaya

Results of hepatic resection in patients with multifocal hepatocellular carcinoma  
B. Pesi, Italy  
G. Batignani | T. Nelli | L. Moraldi

Surgical treatment of colorectal cancer liver metastases in Latvia oncology center  
L. Lauka, Latvia  
A. Sivins | I. Nemiro | I. Kreice | S. Gerkis | I. Jelovskis | A. Pcolkins | G. Ancans

Right extended hepatectomy with biliary and colonic resection in one stage  
A. Ferrarese, Italy  
S. Olcese | S. Bruno | L. D’Ambra | C. Feleppa | S. Berti

Intraoperative radiotherapy in liver colorectal metastasis combine treatment  
A. Karpov, Russia  
A.V. Shabunin | M.M. Tavobilov | D.N. Grekov

Laparoscopic vs Open resection for colorectal liver metastases:  
a non-randomized single-center study with propensity-score analysis  
M. Costa, Italy  
N. de Angelis | M. Disabato | C. Saloum | P. Compagnon | F. Brunetti | A. Laurent | D. Azoulay

Methods of thermal ablation in combination with hepatic artery chemoembolization in treatment  
of patients with colorectal cancer liver metastases  
P.A. Drozdov, Russia
Surgical resection for non-colorectal, non-neuroendocrine liver metastases
New insights, new attitudes, new opportunities

A. V. Shabunin | V. V. Bedin | D. N. Grecov | M. M. Tavobilov

A. B. Almeida, Portugal
R. Bessa de Melo | L. Graça | J. Costa Maia

Multimodality approach in the treatment of patients with hepatic colorectal cancer metastases:
single center 6 years experience

V. Solovov, Russia
M. Vozdvizhenskiy

Multiple bilobar colorectal liver metastases. Different insights a common goal: improve the outcome.

A. Percivale, Italy
G. Griseri | M. Ceriotti | A. Franceschi | R. Pellicci

Single center experience in the management of ruptured liver tumors

H. Alexandrino, Portugal
L. Ferreira | R. Martins | M. Serôdio | M. Martins | J. Guilherme Tralhão | F. Castro e Sousa

Laparoscopic perspectives for distal biliary obstruction

A. Ferrarese, Italy
